DETAILED ACTION

Election/Restrictions

Claims 1-19 and 113-120 stand withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 6.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 20-22, 24, 37-40, 51, 70, 74, 75, 78, and 95 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Knoepfler (5,217,460). Applicant's attention is directed to Figure 5. Regarding claim 20, the device functions in a bipolar mode wherein each jaw is an electrode. Jaw 110 includes a conduit. The label "return" fails to be patentably significant.

Art Unit: 3739

Claims 20-24, 26, 37-40, 45, 51-56, 70, 73-75, 78, 80-82, 85, 86, 89, 94-97, and 99 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Mulier et al (6,096,037).

Applicant's attention is directed to Figures 9-12, in particular. The return electrode is fixed to the shaft distal end. The claims do not state that the return electrode is stationary with respect to the active electrode.

Allowable Subject Matter

Claims 25, 27-36, 41-44, 46-50, 57, 71, 72, 76, 77, 79, 83, 84, 87, 88, 90-92, 93, and 98 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 58-69, 100-105, 107, 109, and 121 are allowed.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
